INDEX

TO BIBLIOGRAPHY OF

Technical Reports

UNITED STATES DEPARTMENT
OF COMMERCE

OFFICE OF TECHNICAL SERVICES

This Index IS A KEY to the material contained in the reports of the Office of Technical Services. It makes available a ready reference to the abstracts contained in volume 15 of the Bibliography of Scientific and Industrial Reports and covers all reports listed in the six issues from January through June 1951 inclusive

- "P. B. No." refers to the numbers assigned to the report by this Office (formerly known as the Publication Board). "Page" refers to the number of the page in the Bibliography where an abstract of the report may be found.

- Most large public libraries have complete files of the Bibliography for consultation. Complete directions for ordering the reports are contained in each issue of the Bibliography.

- The reports indexed have been received from civil and military agencies of the United States Government and from cooperating foreign governments. Many of the reports cover information captured in enemy countries. Secrecy restrictions on all reports listed have been lifted.
